

The Wine List

The wine list and sommelier service at Vue de monde is designed to reflect and enhance the menu and to provide a contemporary, global context to Australia's winemaking tradition. Central to the Vue de monde cellar is a celebration of Victorian producers; its emphasis on vintage depth bringing focus to the unique history of the wine regions surrounding Melbourne.

Beyond Victoria, the diversity of Australia's wine regions is represented by a collection of iconic and emerging producers with a common thread of regional and varietal typicity connecting each listing. Farther afield, the collection of international wines reflects Vue de monde's international vantage point, inspiring guests to visit new sites or return to favourite places.

With a range of different backgrounds, Vue de monde's sommeliers are eager to share their experience and passion for wine and to advise on a selection to compliment and counterpoint the meal.
